Autonomy

Free Software helps to develop and maintain tailored software that suits your needs, not just the vendor's business model.

Share & Copy

A Free Software licence allows a limitless number of installations to be run, without paying extra.

Reuse Code

Free Software provides the freedom to reuse the code for other projects.

Competition

Free Software resists monopolisation and enhances competition.

Collaboration

Free Software can be shared and used in a non-exclusive way by everyone – serving the public good.

No Lock-in

Free Software licences reinforce independence from vendors and provide more choice in service providers.

Innovation

A Free Software licence encourages innovation for your software.

Security

Free Software allows for independent security checks that help close security holes faster.
