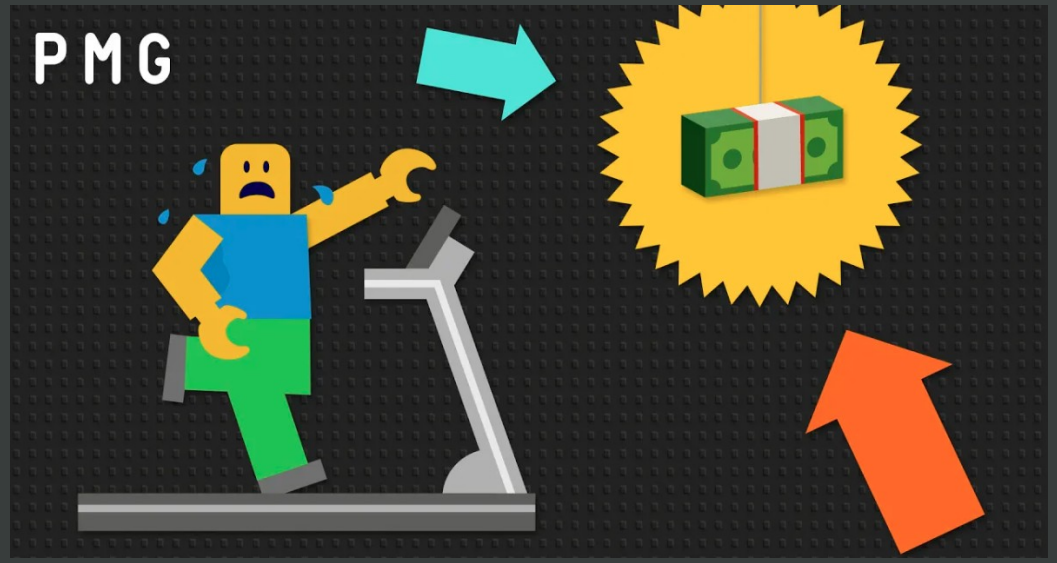
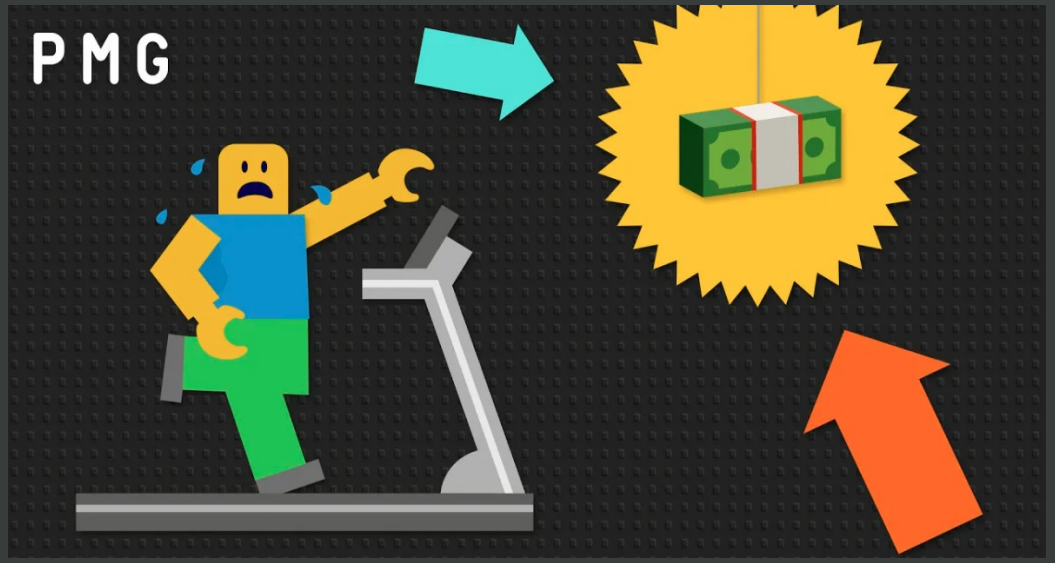
Roblox



Roblox



- Exploits child labour and promises easy money
- They say they haven’t enough money, yet the CEO is billionaire
- Internal harassment ignored
- Pushes people to gamble
- In 2021, it earned more than Nintendo

Hello everybody 👋

We'd like to inform you that, due to lack of time, we've decided to put aside the development of Synthetic Stars for now. Instead, we've been currently focusing on our Minetest server, something that takes way less time to develop (a server where you can find a blocky version of S4 League, called Block League). We still hope to get back to Synthetic Stars someday!
