

APÄSENSE

Buonomo Aurelio, Zanotti Christian

The Problem

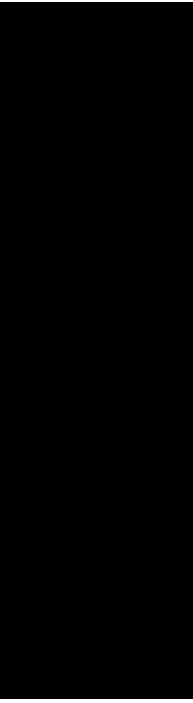

<https://analytics.opendatahub.com> | Bluetooth,Agip_Einstein,Bluetooth Count record,3600,2022-3-1,2022-6-01 (simplified)

The Solution

Lightweight automated
quality control

Strategy

Definitions

Define endpoint structure

Test cases

Test the same endpoint with different parameters

Validators

Evaluate test cases

Validators

Language agnostic

Templates

Community driven

Roadmap

1

UI/UX

Web-UI

Desktop/Mobile

Alert infrastructure

2

Validation

DSL for validators

External data fetchers

3

API

3rd party authentication

4

Future

An idea you might have
